Weld Table Series

Welding tables from BUILT Systems are world-class height-adjustable platforms designed for the welder's safety and convenience.

High-performance actuators raise and lower loads at the touch of a button, for smooth, ergonomic operation. Designed and manufactured in the United States, our modular welding tables offer valuable benefits.

Custom

Because your products and processes are unique, your production challenges are too.

Our in-house design team can create custom solutions on any BUILT product, ensuring that your order meets your goals and precise specifications.
